

*The Mariental Multi-purpose Youth Center is falling apart and may collapse anytime. It was built in 2008 by a company called Gwangxi International Construction Engineering Namibia cc. The youth are left perplexed. Roofs are falling in, some walls have already fallen. Those still up have cracks. "It is risky holding meetings here because this building can collapse anytime and we are afraid we may be strapped in when the building collapses," said one young lady. Photos by Levi Upula.*

*This wall has already fallen, barely two years after it was built. All photos by Levi Upula.*

*The Mariental Multi-purpose Youth Center seen from inside.*

*This crack is too wide to be fixed as it runs through the wall.*
