Our times are characterized by an unprecedented event: the threat to the survival of the human species imposed on the world by imperialism. The painful reality should not come as a surprise to anyone. It could be seen rapidly advancing in the past few decades, at such a pace as it is hard to imagine.

Do means that Obama is the promotor of this threat or that he is responsible for it? No, it simply shows that he ignores reality and that he neither wants to go beyond nor could he.

He’d rather dream of unreal things in an unreal world. As a brilliant poet put it: “Ideas with things in an unreal world. As a connection and appointed director of the Voice of America propaganda machine.

In addition to deceiving its audience!, [“those stations use an offensive and inflammatory language” that disqualifies them.

After 18 years, Radio and TV Marti have failed to make sensitive inroads in the Cuban society or to influence the Cuban government”. The report made public this Monday recommends merging the Office of Cuba Broadcasts (OCB) with the Voice of America, the official US government propaganda radio station.

“The Committee recommends to urgently taking the two stations out of Miami under the necessity to balance the hiring of personnel to turn out a non-politicized and professional ‘product’, the senators say.

“The Kerry report makes reference to Alberto Mасаро, a nephew of the wife of Pedro Roig, Director General of Radio and TV Marti, who was hired thanks to his family connections and appointed director of the Latin American services of the Voice of America.

“The document offers a detailed account of how on February 2007, the former director of the TV Marti programming, ‘alongside a relative who is a member of Congress,’ have zeros as just, said Press TV.

“We have treated the U.S. nationals according to our religious principles and on humanitarian grounds, even though these individuals contracted an act of espionage by illegally crossing the border into Iran,” Moslehi was quoted as saying on Wednesday by Press TV.

The three Americans, Shahr Shourd, Josh Fattal and Shane Bauer, were arrested in Iran on July 31 last year after they illegally entered the country from its western borders.

They were charged with espionage last November, which the U.S. government considered totally unfounded and said they should be freed.

“Charged with espionage, are free of charge for patients.

On March 2010, the US Congress introduced a bill to streamline the healthcare pro-

terns and increase the number of healthcare professionals to develop countries”.

Cuba continues sending doctors to work in poorly populated nations on the planet, something it started doing in 1961.

“Given the recent support to a healthcare reform in the United States, the possibility of a new model of development is the highest priority for Cuba.”

“Is solidarity among human beings the answer to human suffering? We can be sure it will be a new era of cooperation between American and Cuban scientists.”

On the other hand, the Tribune Latina web site recently ran an article on the new immigration Law in Arizona.

“According to a survey made public by the CBS network and The New York Times, 51% of the people feel that the Law is necessary to approach immigration while 9% feels it should go further on the matter.

On the other hand, 36% feel that they have gone ‘too far’ in Arizona.

“Two out of three republicans support the measure”, “while only 38% of democrats are in favor of said Law.”
