documents, economic sabotage such as with the ever constant reporting of NWR insolvency without reporting the reasons such as the non-transfer of assets necessary to strengthen NWR's financial position, the conduct of phony and expensive investigations for which no one takes responsibility, character assassination such as the jealous-driven venomous targeting of Dr. Aupindi and his leadership of NWR, and many such actions are the order of the day!

When our Founding President and Father of the Namibian Nation hinted at a policy of reconciliation after independence on 21 March 1990, the message was aimed at nation building – blacks and whites together. This has however not being the case with our white and wealthy “brothers” still choosing to sabotage and derail progress towards an economically stable State; and using the white controlled media to discredit key Black and strong people leading the change process, such as Dr. Aupindi.

The youth such as myself will never allow history to repeat itself – what happened to Dr. Aupindi's grandfather will never be repeated in this lifetime – and definitely not in an independent SWAPO Party led Namibia. Today we have a stable and peaceful country, a society where we have embraced all willing contributors towards nation-building and economic emancipation. We have however not forgotten about the ill-treatments and economic marginalization of black people in the past and would like to warn all detractors wishing to take advantage of our peace and stability to remind us of the past, that “We will die fighting” before we allow any repeat of the past! Black Namibians and Black South Africans share the same history. If you don't respect the policies and legal frameworks put down by our first sovereign Presidents (Dr. Sam Nujoma & Nelson Mandela, respectively), we will be quick to remind you who the true sons and daughters of this soil are; and show you the Atlantic Ocean as an escape route.

In spite of our detractors, we remain focused on making NWR a success and the proof of that is there for every patriotic Namibian to see. Our detractors in the form of those that fail in their jobs such as not being able to execute proper risk management, the white racist in the media, and the economic saboteurs hibernating in our midst are welcome to try BUT they will never succeed in stopping our progress!!

DPRK blasts U.S. nuclear policy, vows to increase own arsenal for deterrence

PYONGYANG, — The Democratic People's Republic of Korea (DPRK) blasted the new U.S. nuclear policy on Friday, saying it remains “hostile,” and vowed to increase its nuclear arsenal, the official Korean Central News Agency (KCNA) reported.

In its “Nuclear Posture Review” issued Tuesday, the Obama administration renounced the use of nuclear weapons against non-nuclear states, but not including those that violate and quit the “Treaty on the Non-Proliferation of Nuclear Weapons,” such as the DPRK and Iran.

“This proves that the present U.S. policy toward the DPRK is nothing different from the hostile policy pursued by the Bush administration,” and the DPRK is a “target of preemptive nuclear strike”, the Foreign Ministry said in a statement.

The ministry said the DPRK develops nuclear weapons for the purpose of “detering the U.S. attack and defending its sovereignty and right to exist-

ence.” The DPRK has so far “sincerely implemented its international obligation as a responsible nuclear weapons state,” the ministry added.

The denuclearization of the Korean Peninsula is the “invariable goal” of the DPRK, the statement said. What is most urgent for the U.S. is to “roll back its hostile policy toward the DPRK in practice, not with empty talk, and take a confidence-building measure,” it said. “As long as the U.S. nuclear threat persists, the DPRK will increase and update various types of nuclear weapons as its deterrent in such a manner as it deems necessary in the days ahead ... The DPRK has the reason, qualifications and capability to do this,” the statement said.

The DPRK also said the U.S. nuclear policy “chilled the hard-won atmosphere for the resumption” of stalled six-nation talks. The talks, involving the two Koreas, China, Japan, Russia and the U.S., were last held in late 2008. (Xinhua)
